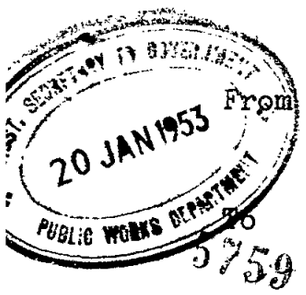
Dated the 31st January 1953

FOR MYSORE STATE

[Despatch Abstract.]

Electricity Department - Establishment - Temporary - Rayalaseema Power System -Bellary Distribution Post of one Supervisor (Electrical II Grade - Sanctioned.

GOVERNMENT ELECTRICITY DEPARTMENT.



From

The Chief Operation Engineer(North),
157, Mount Road, Madras--2.

To

The Secretary to Government,
Public Works Department, Madras.

No.737 H/52-11 dated 16th January, 1953.

Sir,

Sub: ESTABLISHMENT-Temporary-Rayalaseema Power System-Bellary Distribution-Sanction of a Supervisor(Electrical) II Grade- Requested.

***

3-4 cf (N)

The Bellary Distribution in the Rayalaseema Power System is now under the charge of a Junior Engineer and this post was sanctioned in G.O.Ms.No.3566,P.W., dated 24-9-49.

2. The Municipal Distribution was taken over in 1950 and the work in the Distribution has increased considerably due to effecting of new service connections and the following figures indicate the present position of the Distribution:--

(1) 11 Miles of 11 K.V.Line.

(2) 15 Nos. Distribution transformer stations.

(3) 60 Miles of L.T.Distribution lines.

(4) About 2500 sergice connections.

(5) Monthly revenue is about Rs.23,000/-.

3. Further, every month, about 60 to 70 new services are being connected up and the Junior Engineer has also to supervise the bill collection work and take physical custody of cash collections, in addition to the operation and maintenance of the Distribution. It is also reported by the Superintending Engineer,Rayalaseema Power System that there are still about 1500 applications pending for which service connections have to be effected and that the public are clamouring for speedy supply of energy.

4. The existing Junior Engineer is not able to cope with the increased volume of work referred to above and hence the monthly and periodical checks which are to be conducted by the Junior Engineer as per provisions of the Madras Electricity Department Manual could not be undertaken by him. Further the jurisdiction of the Junior Engineer has also become very unwieldy.

5. The Superintending Engineer,Rayalaseema Power System reports that with the present vast distribu-tion and heavy operation and maintenance work, it is not possible for a single Junior Engineer to keep the section free from arrears. As proper check is necessary to avoid leakage of revenue and financial loss to Government, I consider that the bifurcation of the section(Distribution) is necessary and request that Government may be pleased to accord sanction for the post of a Supervisor(electrical) II Grade for a period of one year in the first instance.

(PTO)

2

6. Since it is reported by the Superintending Engineer, Rayalaseema Power System and Chief Controller of Accounts that some misappropriation has occurred in the Distribution due to want of proper check over the collections etc. I request the favour of very early orders of Government sanctioning the staff.

7. I have to state that similar sanction was also accorded by Government in the case of Vizianagaram Distribution which is on a par with Bellary--Vide G.O.Ms. No.1558, Public Works, dated 17-4-1951. p.3cf (2)

8. The expenditure is debitable to "XLI-Receipts from the Electricity schemes-Working Expenses-II Thermo Eledtric Schemes- F.Ceded Districtx Schemes-Pay of Establishment."
